

Surgical and Cosmetic Dermatology of RI, LLC

P: 401-751-7546 F: 401-751-6888

E: Info@RhodelslandMohs.Com

For the health and safety of our patients and staff, Surgical & Cosmetic Dermatology is now requesting that all Mohs patients have Pre-Surgical Covid-19 Testing prior to their procedure. Below you will find several convenient testing locations. You may also go to a location of your choice. Please be advised that some locations take up to 72 hours to return your results, and you are asked to self-isolate in between taking the test and having your procedure done to avoid coming in contact with the virus in the interim. When you have scheduled a test, please call to inform us. Attached you will find a referral for sites that may require one. Please have your results faxed directly to the office prior to your appointment. Thank you.
